## DETAILED ACTION

### *Claim Rejections - 35 U.S.C. § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-65 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Taken as a whole the claims recite an undue multiplicity of claims by virtue of the unreasonable number of claims presented which tends to obfuscate, confuse, and becloud the claimed invention. Because the examiner believes that in his judgement that (30) claims are sufficient to properly define applicants' invention, applicant is required to select certain claims, not to exceed thirty for examination on the merits, See M. P. E. P. 2173.05(n). It is noted that most patents in class 370 have 30 claims or less.

It is further noted that it would appear that a multiplicity of inventions also appear to be involved and the applicant is requested to group the selection accordingly to read a single invention. The applicant should group claims according to what he believes to be distinct inventions to avoid restriction in a subsequent action.
